People Solutions that Solve Problems

At Catalyx, we deliver managed, flexible, and scalable solutions designed to strengthen operations in highly regulated environments. Combining GMP expertise with a commitment to quality-driven delivery, we provide high-quality, cost-effective, people-based solutions backed by end-to-end technical and engineering expertise.

Our teams can drive projects independently or integrate seamlessly within your organisation to ensure flawless execution. And with over 90% of our staff employed permanently, Catalyx guarantees cost efficiency, speed, and deep GMP knowledge.

How We Deliver :

Three Models for People & Projects

Embedded Resources

Catalyx employees embed seamlessly into your team, working under your direction to fill specific roles – the ideal way to supplement headcount.

Managed Services

Catalyx provides dedicated teams to deliver projects or support specific functions, guided by a team lead to ensure seamless alignment with your objectives

Functional Service Provision (FSP)

A flexible outsourcing model where our onsite teams operate within your quality systems, with Catalyx managing the workforce while you retain oversight of critical functions.

We Don't Just Provide People; We Deliver Expertise You Can Trust

Project and Engineering Services

DCS Engineering	Delta V / PCS 7 Engineers
Scada / PLC Automation	Automation / Controls Engineers (Rockwell, PLC, FactoryTalk, Scada)
MES Deployment	MES Engineers (Werum PAS-X Specialists, Rockwell Pharma Suite)
Data Historian Integration	Data Infrastructure Engineers (OSI PI, Canary etc)
Scada & HMI Development	Ignition Engineer / AVEVA / Wonderware Dev / Seeq Analytics
Validation & Compliance	CSV / CSA Engineers / Validation Leads
Lab & Quality Systems	LIMS / QMS Implementation Engineers / Validation Specialists / eQMS System Admin / CSV Engineers

Operations Deployment

Manufacturing	Operators / Technicians / Line Leads / Team Leads
Packaging	Packing Operators / Line Leads
Warehousing	Material Handlers / Warehouse Technicians
Distribution	Distribution Specialists
Supply Chain	Co-ordinators / Supply Chain Specialists / Customer Service

QA / QC & Lab

Quality Assurance	QA Associate / Specialists
Quality Control	QC Analyst / QC Chemists / QC Microbiologist / Sample Co-ordinator
Lab Operations	Lab Technicians / Lab Systems

Support & Maintenance

Maintenance	Preventative Maintenance Technicians
24 x 7	Support Engineers / Techs to keep lines up and running
Remote	Support Teams
